

Start Here!

This package contains the following programs:

inhand AVIATION *Weight&Balance*
inhand AVIATION *AircraftEditor*

Please install the following files on your Palm OS device:

W&B.prc
AircraftEditor.prc

In order to use *Weight&Balance* you will first need to create an aircraft.

Begin by reading the *AircraftEditor Users Manual* to become familiar with the process of making and editing an aircraft file.

Once you have an aircraft created, it can be used with *Weight&Balance* to compute aircraft loading and center of gravity.

Thank you for being an inhand AVIATION customer!
