

IntelligentFind

A Search Engine for your PalmPilot®

Quick Start

Enter your question (in English!) or search terms here.

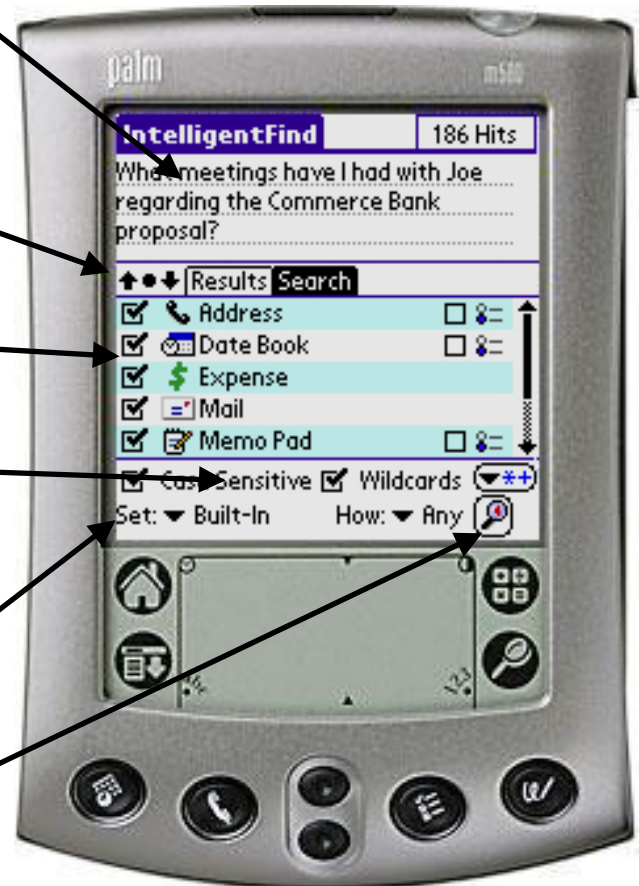

Tap the “Up” or “Down” arrows to minimize/maximize the list or search terms field. Tap the “Ball” to return the display to its default “split” view.

Check only the boxes of applications you want to search.

Search for exact text, “case insensitive” text, or use wildcards. Search for “all” or “any” terms. Or select “How: Ask Question” to search for an answer.

Save custom search “sets” that you plan to use again. Choose what to search: all applications, the built-in applications, selected applications. Then select “New Search Set...”

Tap the “Find” button to start your search.
