

## RAINBOW MEDIA RINGTONE USER MANUAL FOR POCKETPC

Thank you for purchasing this Ringtone pack from RAINBOW MEIDA.  
-----

### Compatibility

Ringtone pack was developed and tested for **Windows Mobile PocketPC**.

### Prerequisites

- Windows 98/ME/2000/ XP/Vista
- For Mac, unsupported, so unzip the exe file using the zip tools in windows
- Acitvesync 3.8 or greater

### Unpacking the Ringtone Pack

Our pack is supplied as a ZIP archive which contains set of wav or mp3 or midi files. Downloaded file should be unpacked **on your desktop computer** to any temporary folder. You may use for that either regular WinZip or another unzip utility file, select any temporary folder and unzip it.

### Installing new ringtone in the form of mp3, wav and midi file

Mp3, wav and midi files need to be installed manually on the phone. To install, please follow these steps:

#### For PocketPC or Windows Mobile 5

To add system sounds and ringtone to your PocketPC, simply do the following:

- 1) Within ActiveSync select the "Explorer" tab. Activesync must be connected.
- 2) Click on "My PocketPC".
- 3) PocketPC => You'll see a "Storage or IPSM" directory- then open "Storage" and then open the Application Data and then "Sounds" and copy the sounds from this zip file into the directory "Sounds". Ready  
For Alarm and reminder, PocketPC => You'll see a "Windows" directory- then copy the alarm sound in this folder.
- 4) On your PocketPC, select Start - Settings - Sounds.
- 5) Make sure you have "Enable Sounds for Events and Programs" checked.
- 6) Select the "Notifications" tab.
- 7) Select the event sound you want to change, and then select your new sound from the "play sound" drop down menu.

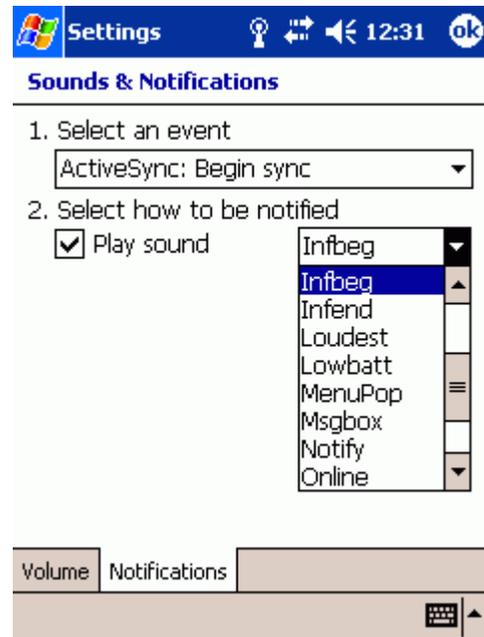

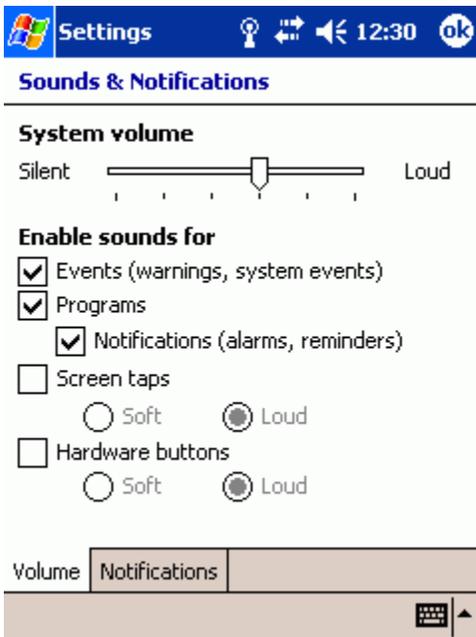

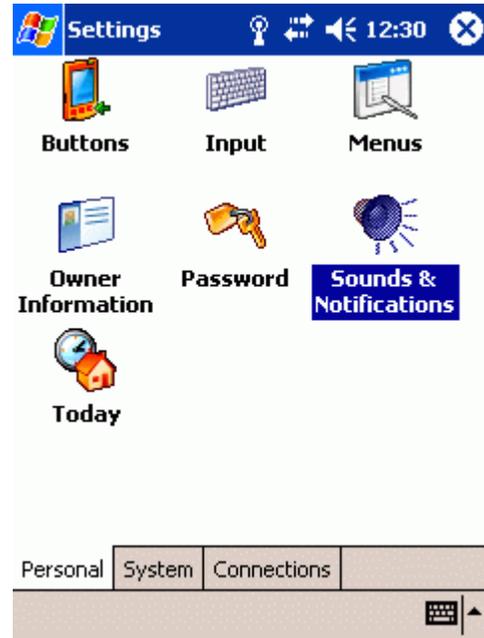

### Remove Ringtone

To remove the ringtone from the PocketPC, just delete the ringtone file in the PocketPC.

## How to Change your ringtone and sound

To switch the active ringtone and sound from already installed ringtone and sound, follow these steps:

1. From the Start Screen go to Start->Settings->Sounds.
2. Use the Volume and Notification menu to select your ringtone, alarm and sound. Make sure that every sound setting is enabled.
3. Select Done.
4. Press Home.
5. You can now listen the new ringtone and sound.

## Troubleshooting / FAQs for PocketPC:

### **Q1: I copied the sound files to my PocketPC, and they don't show up on the Start | Settings | Sounds | Notification!**

A1: The #1 reason for users who have this problem is that the sound files (i.e. the .wav, midi, mp3 files) are not copied DIRECTLY to the "Sounds" folder on the PocketPC. Make sure that the copied sound files are in the "Sounds" folder of your PocketPC, and not under any sub-folders. Otherwise, the sound files will not be recognized by the device and will not appear in the settings menu. Don't drag the whole "ringtone" folder on your PC to "Sounds" on your PocketPC. Instead, go INSIDE the "Ringtone" folder and then select and copy the .wav files. Still not working, Please refer to your phone manufacturers instructions for exact details of how to do this installation and settings. Once transferred assign them as you would any normal ringtone or alert sound. Make sure that your device is compatible with wav, mp3, midi files.

### **Q2: I copied the sound files in the PocketPC's "Sound" folder, but I cannot use them as ringtone, alarm etc... Please help!**

A2: Please make sure that you are having PocketPC 2002 - 2003 or Windows Mobile 5 PocketPC Operating System Device.

### **Q3: I double-clicked on the .wav files on my PC, but Windows does not know how to open the file.**

A3: The .wav ringtone files must be copied to your PocketPC's " Sounds" or "windows" folder for them to work. Follow the steps in the "Installation" section of this document to install them.
