Traffic Fines V 1.0 – created by www.pdasoftnet.com

This program will help you to keep track all the traffic tickets that you paid or unpaid.
You can get a running total on how much fines you paid/unpaid. Also let you record
something like when is the court date, who issued the traffic ticket etc…

This is main screen when you first launch the program, it shows the running total of the
all the traffic fines in the DB.

Car Profile - To add/modify/delete the pre-defined Car profile
Offenses – To add/modify/delete the pre-defined traffic offenses

This is pre-defined filters

Paid – It will shows all the records that marked "PAID"
Unpaid- It will shows all the records that is "UNPAID"
Court – It will shows records that is marked "Court"
All – It will shows all records
