

Med-Expense – 4.0 Shareware-Version

(c) Sylvia Zedewitz, 2002-2004, palmianer@s-ze.de

Description:

This program serves as a data manager for your medical expenses. The expenses can be assorted for different persons (of your family) and sorts of expenses (e.g. doctor's bill or fees for prescriptions and medicines).

You can export and print the data

Installation and use:

Please install "I_Med-Exp-V.prc" as ever, then tap the "Install Med-Exp"-Icon to automatically expand the archive. After the install process, the install file will be deleted automatically. Do NOT deinstall a previous version. Thus already saved data will not be lost.

User's Guide:

Problems:

Requires PalmOS 3.5 (or above).

This applicaton was tested on the Palm Vx (OS 3.5, black/white), Palm M505 (OS 4.0, coloured), Palm Tungsten (OS 5.0) and with the Palm OS Emulator. I haven't found any problems which would cause a crash.

Frequently Asked Questions (FAQs):

-Is it possible to run the application from SD/MMC-Card?

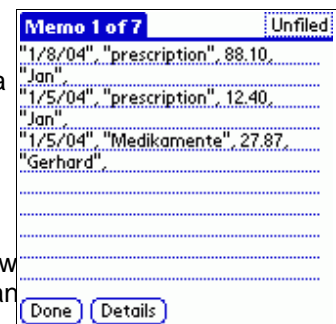

Please avoid installing this program on SD-cards and similar devices. This is only a recommendation, because I received SINGLE reports about problems connected to this subject.

-I would like to print my data?!

Please choose "Export DB" in the main menu. After a comparison of the data (hotsync) it can be printed from your desktop applicaton. The data can be exported to spreadsheets when it has been saved as a *.txt or *.csv.

After the printing you can, if you like, start a new database ("Delete DB") or delete all records older than 100 days ("Purge records").

Restriction of Shareware-Version:

- No filter function
- No export function
- No support
