Palm OS Basics

This manual assumes the user has knowledge of fundamental Palm OS concepts. If you are unsure how to run an application or other related concepts, please consult the user's guide that came with your communicator.

Installation

The xLights Package

The package should contain the following in the zip file:
- xLights Palm OS ".prc" file
- This Guide in PDF format
- Readme.txt file

Requirements:
- A Treo 270 or Treo 300 Communicator from Handspring

Installing Your Software

To install xLights simply double-click the xLights.prc file or use the Palm Desktop Installer tool (usually located in Start/Programs/Palm Desktop/Install Tool)

If you are unsure how to install an application into your communicator, please consult the manual that came with it.

About the Demo Version

The demo version of xLights is fully functional during the trial period of 15 days.
After the trial period expires, xLights will automatically turn off. If you try to run xLights after this period, a trial expiration message will be displayed, and xLights will remain off until you register.

Registering

If you decide to purchase xLights, you will need to enter your registration number obtained from http://www.palmgear.com to enable the software after the trial period.

To enter your registration number, run xLights and tap on the xLights application name (located in the upper left corner of the screen). A popup menu will appear. Choose the Registration option from the menu, and a registration form will appear.

Enter the registration number, and tap the "Done" button.
